PURPOSE:

The Savannah Airport Commission's (SAC's) Purchasing Department is hosting a Vendor Meet and Greet to strengthen partnerships with current and prospective suppliers while promoting transparency and accessibility in our procurement process. This event will provide vendors with valuable information on how to conduct business with the Commission, including vendor registration and an overview of our digital e-bidding software. By sharing knowledge and resources, we aim to foster fair competition, increase vendor participation, and build strong, collaborative relationships that support the operational needs of the airport.
